

Lewisham Allotment Information July 2023

Please note: Actual waiting times cannot be predicted. Waiting lists are a bit like supermarket queues – hard to predict! Short ones can move slowly while long ones can move surprisingly quickly. It all depends on plots becoming available when current plot-holders give up or when notice is given on unmaintained plots. This varies from year to year and site to site. The waiting times below are how long the people at the top of the lists have been waiting, not how long new applicants will have to wait. We advise that you choose sites that are close to where you live so that when you do get an allotment you are able to visit it easily and frequently in order to look after it. If you are not able to put in the effort required to fully use your allotment you risk losing it.
